# STRENGTH

**Perfectionist & hard worker**  
I'm not content with what I have accomplished, I always want to improve it if I have time.

**Desire for challenge**  
The word "impossible" does not appear in my daily sentences, if others are successful, why not me with an extra.

**Leadership and analysis skills**  
I am very sociable and I love to motivate people to evolve or reach a common goal. My analytical and logical mindset has driven me to become a technical reference in every team and project I've been involved with.
